Bug # 654192
Cyrillic: soft-en 'њ' ligature bowl does not meld with horizontal bar

We decided on the option b that you provided in the bug report.
The presentation below is explaining why the option seems
inconsistent on a design point of view. We fully agree with option b.

Bug # 867577
Mono: Greek: Gamma (capital gamma) letter disfigured

The proposition of discarding the serif of the Gamma Capital is totally acceptable. Note if we discard this serif this will have an incidence on the same look letter within the Cyrillic writing system. You can see below what would involve the modification of Gamma Cap.

Unbuntu Regular	Before Unbuntu Monospaced Regular	After Unbuntu Monospaced Regular
greek letter gamma	greek letter gamma	greek letter gamma
cyrillic capital letter ghe	cyrillic capital letter ghe	cyrillic capital letter ghe
cyrillic capital letter ghe with descender	cyrillic capital letter ghe with descender	cyrillic capital letter ghe with descender
